**INTERGOVERNMENTAL OCEANOGRAPHIC COMMISSION
(of UNESCO)**

**FOURTEENTH SESSION OF THE INTERGOVERNMENTAL COORDINATION GROUP FOR
THE INDIAN OCEAN TSUNAMI WARNING AND MITIGATION SYSTEM**

Banten, Indonesia

17–19 November 2024

EXECUTIVE SUMMARY

In accordance with Rule 30.3 of the Rules of Procedure for the primary Subsidiary Bodies of the Commission, the Intergovernmental Coordination Group for the Indian Ocean Tsunami Warning and Mitigation System is required to report to a governing body on its sessions.

The IOC Assembly at its Thirty-third Session will be invited to consider this Executive Summary. For more detailed information on the Fourteenth Session of ICG/IOTWMS, please refer to its website at <https://oceanexpert.org/event/4574>.

The Agenda for the session and the full text of the decisions are annexed to this Executive Summary in English only.

Executive Summary

1. The Fourteenth Session of the Intergovernmental Coordination Group for the Indian Ocean Tsunami Warning and Mitigation System (ICG/IOTWMS-XIV) was held in Banten, Republic of Indonesia, under the Chairpersonship of Professor Dwikorita Karnawati. The session was conducted in hybrid modality and attended by 77 delegates from 19 Indian Ocean Member States (mainly Australia, Comoros, India, Indonesia, Iran, Kenya, Madagascar, Malaysia, Maldives, Mozambique, Myanmar, Oman, Pakistan, Seychelles, South Africa, Thailand, Timor Leste, United Arab Emirates and Yemen), 5 staff from United Nations agencies (including 4 from UNESCO and 1 from UNESCAP), 6 invited experts and 16 observers. The adopted agenda is attached as Annex I.

2. **The ICG reviewed** the progress made during the intersessional period and considered the reports and recommendations from its Steering Group, Working Groups and Task Team. The ICG considered the [IOWave23 Exercise Report](#) (IOC Technical Series, 181), [2024 Capacity Assessment of Tsunami Preparedness in the Indian Ocean Report](#) (IOC Technical Series, 193), and Tsunami Service Provider (TSP) Status Reports from Australia, India and Indonesia. The ICG also received, considered and noted reports of the 16th and 17th meetings of the Working Group on Tsunami and Other Hazards Related to Sea-Level Warning and Mitigation Systems (TOWS-WG); of the IOC Secretariat; Indian Ocean Tsunami Information Centre (IOTIC); and national reports from 22 Member States. The documentation for the session is available at <https://oceanelxpert.org/event/4574>.

3. **The ICG noted** the UN Secretary-General's Early Warnings for All initiative, which called for every person on Earth to be protected by early warning systems by 2027.

4. **The ICG noted** the approval of the UN Ocean Decade Tsunami Programme (ODTP) [Research Development and Implementation Plan](#) (RDIP) by the 32nd Session of the IOC Assembly and publication of the [White Paper on Challenge 6 of the UN Ocean Decade "Increase Community Resilience to Ocean Hazards"](#).

5. **The ICG noted** the outcomes of the 2nd UNESCO-IOC Global Tsunami Symposium in the *Banda Aceh Statement* on:

Global Tsunami Warning and Mitigation System: Building Sustainability for the next decade through Transformation and Innovation (IOC/BRO/2025/1) UNESCO and its partners call on States and civil society to drastically step up their investments and efforts to strengthen Tsunami Early Warning Systems and achieve 100% of Tsunami Ready Communities across the world by 2030. (November 2024)

6. **The ICG noted** the extensive task to achieve the outcome 100% of at-risk communities resilient and prepared for tsunamis, further recognizing the roles of the ICG/IOTWMS and its work plans are to support the capacity development of Member States to help them achieve this, depending on their risk assessment and national priorities.

7. **The ICG further noted with appreciation** the recognition of 48 communities in India and Indonesia as UNESCO-IOC Tsunami Ready and **encouraged** all Member States to implement the UNESCO-IOC Tsunami Ready Recognition Programme (TRRP) in vulnerable communities with UNESCO-IOC recognition to meet the UN Ocean Decade Tsunami Programme goal of 100% at-risk communities resilient and prepared for tsunamis.

8. **The ICG noted** the successful outcomes of Phases 1, 2a and 2b of the UNESCAP funded project "Strengthening tsunami early warning in the North-West Indian Ocean through

regional cooperation” and the implementation of Phase 2c of the NWIO UNESCAP project involving training in inundation and evacuation mapping in support of implementation of the UNESCO-IOC Tsunami Ready Recognition Programme (TRRP) in the region.

9. **The ICG noted** the successful conduct of Exercise IOWave23 with multiple scenarios including a non-seismic (volcanic) source.

10. **The ICG decided** to accept the report of Exercise IOWave23 incorporating any feedback received from the Member States in four weeks and submission to IOC for publication as an UNESCO-IOC document.

11. **The ICG decided** to conduct an IOWave exercise in 2025.

12. **The ICG noted with appreciation** the work of the Steering Group in overseeing the 2024 Capacity Assessment of Tsunami Preparedness and the comprehensive nature and value of the assessment.

13. **The ICG decided** to instruct the Steering Group to finalize the 2024 Capacity Assessment Report and Executive Summary in four weeks, for further review by the Member States, incorporate feedback if any, and endorse the final report for publication as an UNESCO-IOC document.

14. **The ICG decided** to instruct the Steering Group, Working Groups and Task Teams to consider the recommendations of the ODTP RDIP, IOWave23, 2024 Capacity Assessment and 2nd Global Tsunami Symposium into their work plans.

15. **The ICG decided** to extend the TSP services to include tsunamis generated by non-seismic and complex sources.

16. **The ICG decided** to continue the capacity development initiatives related to Standard Operating Procedures (SOPs), Tsunami Emergency Maps, Plans and Procedures (TEMPP), Tsunami Ready Recognition Programme (TRRP) and on-the-job training for warning centre operators by TSPs.

17. **The ICG decided** to continue:

- Working Group 1 on Tsunami Risk, Community Awareness and Preparedness
- Working Group 2 on Tsunami Detection, Warning and Dissemination
- Working Group 3 on Tsunami Ready Implementation
- Sub-regional Working Group for the North-West Indian Ocean
- Steering Group

18. **The ICG decided** to establish intersessional Task Teams on:

- Indian Ocean Wave 25 Exercise (IOWave25)
- New/Emerging Technologies for Observations and Forecasting
- Medium Term Strategy (MTS)

19. **The ICG encouraged** Member States to make voluntary contributions to the IOC Special Account set up for the ICG/IOTWMS to support activities identified in the Budget and Programme to underpin successful implementation of the IOTWMS and capacity development for Member States. **The ICG requested** UNESCO-IOC Working Group on Tsunamis and

Other Hazards related to Sea-Level Warning and Mitigation Systems (TOWS-WG) to complete and harmonise the Key Performance Indicator Framework for the global tsunami warning and mitigation system to facilitate monitoring and reporting of implementation of the IOTWMS and progress towards Member State goal of 100% of at-risk communities resilient and prepared for tsunamis.

20. **The ICG elected its officers for the next intersessional term commencing at the end of the session**, whereby Mr Pattabhi Rama Rao Eluri (India) was elected as Chair, and Dr Yuelong Miao (Australia) and Dr Harkunti Pertiwi Rahayu (Indonesia) were elected as Vice-chairs.

21. **The ICG acknowledged with appreciation** the contribution and continued support of the Government of Australia for the IOTWMS Secretariat and the support of the Government of the Republic of Indonesia for hosting the Indian Ocean Tsunami Information Centre (IOTIC).

22. **The ICG expressed** its gratitude to the Government of the Republic of Indonesia for kindly hosting the 14th Session of the ICG/IOTWMS in Banten.

23. **The ICG accepted with appreciation** the kind offer of the Government of the Sultanate of Oman to host the 15th Session of the ICG/IOTWMS in 2026 and the kind offer of India as a backup option to host the 16th Session of the ICG/IOTWMS in 2028.

24. **The ICG adopted** Decisions ICG/IOTWMS-XIV.1 as attached in Annex II.

Résumé exécutif

1. La quatorzième session du Groupe intergouvernemental de coordination du Système d'alerte aux tsunamis et de mitigation dans l'océan Indien (GIC/IOTWMS-XIV) s'est tenue à Banten (République d'Indonésie), sous la présidence de M^{me} Dwikorita Karnawati. La session a été menée selon des modalités hybrides et a rassemblé 77 délégués de 19 États membres de l'océan Indien (principalement d'Afrique du Sud, d'Australie, des Comores, des Émirats arabes unis, d'Inde, d'Indonésie, d'Iran, du Kenya, de Madagascar, de Malaisie, des Maldives, du Mozambique, de Myanmar, d'Oman, du Pakistan, des Seychelles, de Thaïlande, du Timor Leste et du Yémen), cinq membres du personnel d'organismes des Nations Unies (dont quatre de l'UNESCO et un de la CESAP), six experts invités et 16 observateurs. L'ordre du jour de la réunion figure à l'annexe I.

2. **Le GIC a passé en revue** les progrès accomplis pendant la période intersessions et examiné les rapports et recommandations de son Groupe directeur, de ses groupes de travail et de ses équipes spéciales. Le GIC a examiné les rapports « [IOWave23 Exercise Report](#) » (Rapport sur l'exercice IOWave23) (Série technique de la COI, n° 181), « [2024 Capacity Assessment of Tsunami Preparedness in the Indian Ocean Report](#) » (Rapport 2024 sur l'évaluation des capacités de préparation aux tsunamis dans l'océan Indien) (Série technique de la COI, n° 193) et les rapports d'étape des prestataires de services (TSP) relatifs aux tsunamis d'Australie, d'Inde et d'Indonésie. Le GIC a également reçu et examiné plusieurs rapports, dont il a pris note : les rapports des 16^e et 17^e réunions du Groupe de travail sur les systèmes d'alerte aux tsunamis et autres aléas liés au niveau de la mer, et de mitigation (TOWS-WG) ; le rapport du Secrétariat de la COI ; le rapport du Centre d'information sur les tsunamis dans l'océan Indien (IOTIC) ; et les rapports nationaux de 22 États membres. Les documents de la session sont accessibles en ligne à l'adresse suivante : <https://oceandexp.org/event/4574>.

3. **Le GIC a pris note** de l'initiative « Alertes précoces pour tous » du Secrétaire général de l'ONU, qui a appelé à protéger chaque personne sur Terre à l'aide de dispositifs d'alerte rapide d'ici à 2027.

4. **Le GIC a également pris note** de l'approbation par la 32^e session de l'Assemblée de la COI du Plan de recherche, de développement et de mise en œuvre concernant le [Programme relatif aux tsunamis de la Décennie de l'Océan](#) et de la publication du document « [White Paper on Challenge 6 of the UN Ocean Decade 'Increase Community Resilience to Ocean Hazards'](#) » (Livre blanc sur le défi 6 de la Décennie de l'Océan des Nations Unies : « Accroître la résilience des communautés face aux risques océaniques et côtiers »).

5. **Le GIC a pris note** des résultats du deuxième Symposium mondial de la COI sur les tsunamis dans la *Déclaration de Banda Aceh* :

Le Système d'alerte aux tsunamis et de mitigation dans l'océan Indien : renforcer la durabilité pour la prochaine décennie au moyen de la transformation et de l'innovation (IOC/BRO/2025/1). L'UNESCO et ses partenaires appellent les États et la société civile à accroître drastiquement leurs investissements et leurs efforts afin de renforcer les systèmes d'alerte rapide aux tsunamis et de parvenir, dans le monde entier, à des communautés 100 % résilientes face aux tsunamis d'ici à 2030. (Novembre 2024)

6. **Le GIC a noté** l'ampleur de la tâche à accomplir pour atteindre le résultat de 100 % des communautés à risque résilientes et préparées aux tsunamis, reconnaissant en outre que le rôle du GIC/IOTWMS et de ses plans de travail est de soutenir le renforcement des capacités des États membres pour les aider à atteindre cet objectif, en fonction de leur évaluation des risques et de leurs priorités nationales.

7. **Le GIC s'est félicité** que 48 communautés en Inde et en Indonésie aient obtenu la certification Tsunami Ready de l'UNESCO/COI et a encouragé tous les États membres à mettre en œuvre le programme de certification Tsunami Ready de l'UNESCO/COI parmi les communautés vulnérables en ce qui concerne cette reconnaissance, de façon à atteindre l'objectif de la Décennie de l'océan des Nations Unies, qui vise à ce que 100 % des communautés à risque soient résilientes et préparées aux tsunamis.

8. **Le GIC a pris acte** des résultats concluants des phases 1, 2a et 2b du projet « Renforcer le système d'alerte rapide aux tsunamis dans la région de l'océan Indien du Nord-Ouest par la coopération régionale » financé par la CESAP, ainsi que de la mise en œuvre de la phase 2c du projet NWIO CESAP prévoyant une formation à la cartographie des zones submersibles et des itinéraires d'évacuation à l'appui de la mise en œuvre du programme Tsunami Ready dans la région.

9. **Le GIC a constaté** la tenue concluante de l'Exercice IOWave23 avec divers scénarios, dont une source (volcanique) non sismique.

10. **Le GIC a décidé** d'accepter le rapport de l'Exercice IOWave23 en y intégrant les éventuels retours soumis par les États membres dans les quatre semaines, et d'approuver sa publication par la COI à titre de document de la Commission.

11. **Le GIC a décidé** d'effectuer un exercice IOWave en 2025.

12. **Le GIC a salué** le travail du Comité directeur en ce qui concerne la supervision de l'Évaluation des compétences 2024 en matière de préparation aux tsunamis, ainsi que le caractère exhaustif et la valeur de l'évaluation.

13. **Le GIC a décidé** de charger le Comité directeur de finaliser le Rapport 2024 sur l'évaluation des capacités et le Résumé exécutif d'ici quatre semaines, de façon à ce qu'ils puissent à nouveau être examinés par les États membres, d'y intégrer les éventuels retours et d'approuver le rapport final afin qu'il soit publié à titre de document de l'UNESCO-COI.

14. **Le GIC a également décidé** de charger le Comité directeur, les groupes de travail et les équipes spéciales de passer en revue les recommandations du Plan de recherche, de développement et de mise en œuvre concernant le Programme relatif aux tsunamis de la Décennie de l'Océan, l'exercice IOWave23, l'évaluation des capacités 2024 et le deuxième Symposium mondial sur les tsunamis dans leurs plans de travail.

15. **Le GIC a décidé** d'élargir la gamme des services des prestataires de services relatifs aux tsunamis (TSP) en incluant les tsunamis générés par des sources non sismiques et complexes.

16. **Le GIC a en outre décidé** de poursuivre les initiatives de renforcement des capacités liées aux procédures opérationnelles normalisées, aux cartes, plans et procédures d'urgence en cas de tsunami, au programme de certification Tsunami Ready et aux formations en cours d'emploi des opérateurs des centres d'alerte par les prestataires de services relatifs aux tsunamis.

17. **Le GIC a décidé** de maintenir :

- le Groupe de travail 1 sur les risques de tsunami et la sensibilisation et la préparation des communautés ;
- le Groupe de travail 2 sur la détection des tsunamis, l'alerte et la diffusion ;

- le Groupe de travail 3 sur la mise en œuvre du programme de certification Tsunami Ready ;
- le Groupe de travail sous-régional pour l'océan Indien du Nord-Ouest ;
- le Groupe directeur.

18. **Le GIC a décidé** de créer des équipes spéciales intersessions en ce qui concerne :

- l'Exercice Indian Ocean Wave 25 (IOWave25) ;
- les Technologies nouvelles et émergentes pour l'observation et la surveillance des océans ;
- la Stratégie à moyen terme.

19. **Le GIC a encouragé** les États membres à apporter des contributions volontaires au Compte spécial de la COI établi pour le Groupe intergouvernemental de coordination du Système d'alerte aux tsunamis et de mitigation dans l'océan Indien (GIC/IOTWMS) afin de soutenir les activités recensées dans le Programme et budget et d'appuyer la bonne mise en œuvre de l'IOTWMS et le renforcement des capacités des États membres. **Le GIC a prié** le Groupe de travail UNESCO/COI sur les systèmes d'alerte aux tsunamis et autres aléas liés au niveau de la mer, et de mitigation (TOWS-WG) de finaliser et d'harmoniser le cadre d'indicateurs de performance pour le Système mondial d'alerte aux tsunamis et d'atténuation de leurs effets, afin de faciliter le suivi et l'établissement de rapports sur la mise en œuvre de l'IOTWMS et les progrès vers l'objectif des États membres d'assurer la résilience et la préparation aux tsunamis de 100 % des communautés à risque.

20. **Le GIC a élu son bureau pour la prochaine période intersessions, à compter de la fin de la session.** M. Pattabhi Rama Rao Eluri (Inde) a été élu Président, et MM. Yuelong Miao (Australie) et Harkunti Pertiwi Rahayu (Indonésie) ont été élus Vice-Présidents.

21. **Le GIC a pris note avec satisfaction** de la contribution et du soutien constant fournis par le Gouvernement australien au Secrétariat de l'IOTWMS, ainsi que de l'aide qu'apporte le Gouvernement de la République d'Indonésie en hébergeant le Centre d'information sur les tsunamis dans l'océan Indien (IOTIC).

22. **Le GIC a remercié** le Gouvernement indonésien, qui a généreusement accueilli la 14^e session du GIC/IOTWMS à Banten.

23. **Le GIC a accepté avec gratitude** la généreuse proposition du Sultanat d'Oman d'accueillir la 15^e session du GIC/IOTWMS en 2026, ainsi que la généreuse proposition de l'Inde comme solution de remplacement pour la tenue de la 16^e session du GIC/IOTWMS en 2028.

24. **Le GIC a adopté** les décisions ICG/IOTWMS-XIV.1 qui figurent à l'annexe II.

Resumen ejecutivo

1. La 14^a reunión del Grupo Intergubernamental de Coordinación del Sistema de Alerta contra los Tsunamis y Atenuación de sus Efectos en el Océano Índico (ICG/IOTWMS-XIV) se celebró en Banten (República de Indonesia) bajo la presidencia de la Prof. Dwikorita Karnawati. La reunión se celebró en formato híbrido y contó con la participación de 77 delegados de 19 Estados Miembros del océano Índico (Australia, las Comoras, los Emiratos Árabes Unidos, la India, Indonesia, el Irán, Kenya, Madagascar, Malasia, Maldivas, Mozambique, Myanmar, Omán, el Pakistán, Seychelles, Sudáfrica, Tailandia, Timor-Leste y el Yemen), cinco funcionarios de organismos de las Naciones Unidas (cuatro de la UNESCO y uno de la CESPAP), seis expertos invitados y 16 observadores. El orden del día aprobado de la reunión figura en el anexo I.

2. **El ICG examinó** los progresos realizados durante el periodo entre reuniones, así como los informes y recomendaciones de su Grupo de Dirección, sus grupos de trabajo y sus equipos de trabajo. El ICG examinó el [informe sobre el ejercicio IOWave23](#) (Colección Técnica de la COI Nº 181), el [informe de 2024 sobre la evaluación de la capacidad de preparación ante los tsunamis en el océano Índico](#) (Colección Técnica de la COI Nº 193) y los informes de situación de los proveedores de servicios sobre tsunamis (TSP) de Australia, la India e Indonesia. Asimismo, el ICG recibió y examinó los siguientes informes, de los que tomó nota: los informes de las reuniones 16^a y 17^a del Grupo de Trabajo sobre los Sistemas de Alerta contra los Tsunamis y Otros Peligros relacionados con el Nivel del Mar y Atenuación de sus Efectos (TOWS-WG); el informe de la Secretaría de la COI; el informe del Centro de Información sobre los Tsunamis en el Océano Índico (IOTIC); y los informes nacionales de 22 Estados Miembros. La documentación de la reunión puede consultarse en el siguiente enlace: <https://oceanelxpert.org/event/4574>.

3. **El ICG tomó nota** de la iniciativa Alertas Tempranas para Todos del Secretario General de las Naciones Unidas, que pedía que se garantizara que todos los habitantes de la Tierra estuvieran protegidos por sistemas de alerta temprana de aquí a 2027.

4. **El ICG tomó nota también** de la aprobación por la Asamblea de la COI, en su 32^a reunión, del [Plan de Investigación, Desarrollo y Ejecución](#) del Programa de Tsunamis del Decenio del Océano de las Naciones Unidas, y de la publicación del [libro blanco sobre el desafío 6](#) del Decenio del Océano de las Naciones Unidas “Aumentar la resiliencia de las comunidades ante los peligros oceánicos”.

5. **El ICG tomó nota además** de los resultados del Segundo Simposio Mundial sobre Tsunamis de la COI-UNESCO en la Declaración de Banda Aceh:

Sistema mundial de alerta contra los tsunamis y atenuación de sus efectos: generar sostenibilidad para el próximo decenio mediante la transformación y la innovación ([IOC/BRO/2025/1](#)). La UNESCO y sus asociados instan a los Estados y a la sociedad civil a aumentar drásticamente sus inversiones y esfuerzos a fin de fortalecer los sistemas de alerta temprana contra los tsunamis y lograr que, en todo el mundo, el 100 % de las comunidades estén preparadas para los tsunamis de aquí a 2030 (noviembre de 2024).

6. **El ICG tomó nota** de la ingente tarea que supone lograr que el 100 % de las comunidades en riesgo estén preparadas y sean resilientes ante los tsunamis, reconociendo además que la función del ICG/IOTWMS y de sus planes de trabajo consiste en apoyar el desarrollo de capacidades de los Estados Miembros para ayudarles a alcanzar ese objetivo, en función de su evaluación de riesgos y sus prioridades nacionales.

7. **EI ICG tomó nota con satisfacción** de que 48 comunidades de la India e Indonesia obtuvieron el reconocimiento Tsunami Ready de la COI-UNESCO, y **alentó** a todos los Estados Miembros a poner en marcha el Programa de Reconocimiento Tsunami Ready de la UNESCO/COI en comunidades vulnerables, con el fin de que obtengan dicho reconocimiento y se contribuya así a alcanzar el objetivo del Programa de Tsunamis del Decenio del Océano de las Naciones Unidas de lograr que el 100 % de las comunidades en situación de riesgo estén preparadas y sean resilientes ante los tsunamis.

8. **EI ICG tomó nota** de los resultados satisfactorios de las fases 1, 2a y 2b del proyecto financiado por la CESPAP “Fortalecimiento de la alerta temprana contra los tsunamis en la región noroccidental del océano Índico mediante la cooperación regional”, así como de la puesta en marcha de la fase 2c del proyecto de la CESPAP de la región del océano Índico noroccidental que abarca formación en elaboración de mapas de inundación y evacuación para respaldar la ejecución del programa Tsunami Ready en la región.

9. **EI ICG tomó nota también** del éxito del ejercicio IOWave23 con múltiples hipótesis, incluida una fuente no sísmica (volcánica).

10. **EI ICG decidió** aceptar el informe sobre el ejercicio IOWave23 incorporando todas las observaciones que pudieran recibirse de los Estados Miembros en un plazo de cuatro semanas, y transmitirlo a la COI para que lo publique como documento de la Comisión.

11. **EI ICG decidió** llevar a cabo un ejercicio IOWave en 2025.

12. **EI ICG tomó nota con reconocimiento** de la labor del Grupo de Dirección relacionada con la supervisión de la evaluación de la capacidad de preparación para casos de tsunami de 2024, así como del carácter exhaustivo y el valor de la evaluación.

13. **EI ICG decidió** encargar al Grupo de Dirección que finalizara el informe sobre la evaluación de la capacidad de 2024 y su resumen ejecutivo en un plazo de cuatro semanas, con el fin de que los Estados Miembros los examinen nuevamente, se incorporen las observaciones que pudieran formularse, y se apruebe el informe final para que se publique como documento de la Comisión.

14. **EI ICG decidió también** encargar al Grupo de Dirección, los grupos de trabajo y los equipos de trabajo que tuvieran en cuenta en sus planes de trabajo las recomendaciones del Plan de Investigación, Desarrollo y Ejecución del Programa de Tsunamis del Decenio del Océano de las Naciones Unidas, el ejercicio IOWave23, la evaluación de la capacidad de 2024 y el Segundo Simposio Mundial sobre Tsunamis.

15. **EI ICG decidió además** ampliar los servicios de los TSP para incluir los tsunamis generados por fuentes no sísmicas y complejas.

16. **EI ICG decidió** mantener las iniciativas de desarrollo de capacidades relacionadas con los procedimientos operativos estándar (POE), los mapas, planes y procedimientos de emergencia en caso de tsunami, el programa de reconocimiento Tsunami Ready y la capacitación en el empleo de los operadores de los centros de alerta por parte de los TSP.

17. **EI ICG decidió** mantener:

- el Grupo de trabajo 1 sobre riesgo de tsunamis y sensibilización y preparación de las comunidades;
- el Grupo de trabajo 2 sobre detección de tsunamis, alerta y difusión;
- el Grupo de trabajo 3 sobre la puesta en marcha de Tsunami Ready;

- el Grupo de trabajo subregional para el océano Índico noroccidental;
- el Grupo de Dirección.

18. **El ICG decidió** crear equipos de trabajo para el periodo entre reuniones sobre las siguientes cuestiones:

- el ejercicio “Indian Ocean Wave” en 2025 (IOWave25);
- las tecnologías nuevas y emergentes de observación y previsión;
- la Estrategia a Plazo Medio.

19. **El ICG alentó** a los Estados Miembros a aportar contribuciones voluntarias a la Cuenta Especial de la COI establecida para el ICG/IOTWMS a fin de apoyar las actividades definidas en el programa y el presupuesto, y respaldar una aplicación exitosa del IOTWMS y el aumento de capacidades de los Estados Miembros. **El ICG pidió** al Grupo de Trabajo sobre los Sistemas de Alerta contra los Tsunamis y Otros Peligros relacionados con el Nivel del Mar y Atenuación de sus Efectos (TOWS-WG) que finalizara y armonizara el marco de indicadores clave del desempeño para el sistema mundial de alerta contra los tsunamis y atenuación de sus efectos, con miras a facilitar el seguimiento y la presentación de informes sobre la aplicación del IOTWMS, y los avances hacia la consecución del objetivo de los Estados Miembros de que el 100 % de las comunidades en riesgo estén preparadas y sean resilientes ante los tsunamis.

20. **El ICG eligió sus directivos para el próximo periodo entre reuniones que comienza al final de la reunión.** El Sr. Pattabhi Rama Rao Eluri (India) fue elegido Presidente y el Dr. Yuelong Miao (Australia) y el Dr. Harkunti Pertiwi Rahayu (Indonesia) fueron elegidos Vicepresidentes.

21. **El ICG acogió con satisfacción** la contribución y el apoyo constante del Gobierno de Australia a la Secretaría del IOTWMS y el apoyo del Gobierno de la República de Indonesia para acoger el Centro de Información sobre Tsunamis del Océano Índico (IOTIC).

22. **El ICG expresó su agradecimiento** al Gobierno de la República de Indonesia por haber acogido amablemente la 14^a reunión del ICG/IOTWMS en Banten.

23. **El ICG aceptó con reconocimiento** la amable propuesta del Gobierno de la Sultanía de Omán de acoger la 15^a reunión del ICG/IOTWMS en 2026, así como la amable propuesta de la India de servir como país anfitrión alternativo para la 16^a reunión del ICG/IOTWMS en 2028.

24. **El ICG adoptó** las decisiones ICG/IOTWMS-XIV.1 que figuran en el anexo II.

Рабочее резюме

1. Четырнадцатая сессия Межправительственной координационной группы по Системе предупреждения о цунами и смягчения их последствий в Индийском океане (МКГ/СПЦСПИО XIV) прошла в Бантене, Республика Индонезия, под председательством профессора Двикориты Карнавати. Сессия проводилась в смешанном формате, и в ней приняли участие 77 делегатов из 19 государств-членов Индийского океана, включая Австралию, Индию, Индонезию, Иран, Йемен, Кению, Коморские Острова, Мадагаскар, Малайзию, Мальдивские Острова, Мозамбик, Мьянму, Оман, Пакистан, Объединенные Арабские Эмираты, Сейшельские Острова, Таиланд, Тимор-Лешти и Южную Африку, 5 сотрудников учреждений ООН (в том числе 4 из ЮНЕСКО и 1 из ЭСКАТО), 6 приглашенных экспертов и 16 наблюдателей. Утвержденная повестка дня сессии приводится в приложении I.
2. **МКГ провела обзор** достигнутых в межсессионный период результатов и рассмотрела доклады и рекомендации своей руководящей группы, рабочих групп и целевой группы. МКГ рассмотрела [доклад об учениях «Волна-23» в Индийском океане](#) (Серия технических докладов МОК, № 181), [доклад «Оценка потенциала готовности к цунами в Индийском океане за 2024 г.»](#) (Серия технических докладов МОК, № 193) и доклады о ходе работы поставщиков данных слежения за цунами (ПДСЦ) из Австралии, Индии и Индонезии. МКГ также получила, рассмотрела и приняла к сведению доклады 16-го и 17-го совещаний рабочей группы по системам предупреждения о цунами и других опасных явлениях, связанных с изменением уровня моря, и смягчения их последствий (РГ-СПЦО), Секретариата МОК, Центра информации о цунами в Индийском океане (ЦИЦИО) и национальные доклады 22 государств-членов. Со всеми документами этой сессии можно ознакомиться по адресу <https://oceanexpert.org/event/4574>.
3. **МКГ приняла к сведению** инициативу Генерального секретаря «Системы раннего оповещения для всех», согласно которой к 2027 г. каждый человек на планете Земля должен быть защищен с помощью систем раннего оповещения.
4. **МКГ приняла к сведению** утверждение на 32-й сессии Ассамблеи МОК [плана исследований, разработок и осуществления](#) Программы по цунами в рамках Десятилетия океана ООН и публикацию [справочного документа по задаче 6](#) Десятилетия океана ООН «Повышение устойчивости общин к опасным океаническим явлениям».
5. **МКГ приняла к сведению** итоги второго Глобального симпозиума МОК ЮНЕСКО по цунами в Банда-Ачехе на тему:

«Глобальная система предупреждения о цунами и смягчения их последствий: обеспечение устойчивости на следующее десятилетие благодаря преобразованиям и новаторским решениям ([IOC/BRO/2025/1](#)). ЮНЕСКО и ее партнеры призывают государства и гражданское общество значительно увеличить свои инвестиции и активизировать усилия по повышению эффективности систем раннего предупреждения о цунами и обеспечению готовности к цунами 100% общин во всем мире к 2030 г.» (ноябрь 2024 г.)
6. **МКГ приняла к сведению** масштабную задачу по обеспечению устойчивости и готовности к цунами 100% общин, подверженных риску цунами, признав далее ключевую роль МКГ/СПЦСПИО и ее планов работы в содействии развитию потенциала государств-членов для достижения этой цели с учетом результатов оценки рисков и национальных приоритетов.

7. **МКГ с признательностью отметила** получение 48 общинами в Индии и Индонезии сертификата готовности к цунами МОК ЮНЕСКО и **призвала** все государства-члены осуществлять Программу МОК ЮНЕСКО по сертификации готовности к цунами (ПСГЦ) в уязвимых общинах в интересах достижения глобальной цели Программы по цунами Десятилетия океана ООН, заключающейся в обеспечении устойчивости и готовности к цунами 100% общин, подверженных риску цунами.

8. **МКГ приняла к сведению** информацию об успешном завершении этапов 1, 2а и 2б финансируемого ЭСКАТО ООН проекта «Усовершенствование системы раннего предупреждения о цунами в северо-западной части Индийского океана на основе регионального сотрудничества» и об осуществлении этапа 2с проекта ЭСКАТО в северо-западной части Индийского океана, включающего обучение составлению карт наводнений и эвакуации в поддержку осуществления Программы МОК ЮНЕСКО по сертификации готовности к цунами (ПСГЦ) в данном регионе.

9. **МКГ приняла к сведению** успешное проведение учений «Волна-23» в Индийском океане с несколькими сценариями, включая цунами несейсмического (вулканического) происхождения.

10. **МКГ постановила** принять доклад об учениях «Волна-23» в Индийском океане с учетом всех замечаний, полученных от государств-членов в течение четырех недель и представить его МОК для публикации в качестве документа МОК ЮНЕСКО.

11. **МКГ постановила** провести учения «Волна» в Индийском океане в 2025 г.

12. **МКГ с удовлетворением отметила** работу руководящей группы по осуществлению контроля за проведением оценки потенциала готовности к цунами в 2024 г., а также всеобъемлющий характер и ценные результаты этой оценки.

13. **МКГ постановила** поручить руководящей группе завершить работу над докладом об оценке потенциала за 2024 г. и его рабочим резюме в течение четырех недель для его дальнейшего рассмотрения государствами-членами, учета замечаний, если таковые имеются, и одобрения окончательного варианта доклада для публикации в качестве документа МОК ЮНЕСКО.

14. **МКГ постановила** поручить руководящей группе, рабочим группам и целевым группам учесть в своих планах работы рекомендации ПИРО-ПЦДО, учений «Волна-23» в Индийском океане, оценки потенциала за 2024 г. и второго Глобального симпозиума по цунами.

15. **МКГ постановила** расширить спектр услуг ПДСЦ, распространив их на цунами несейсмического и комплексного происхождения.

16. **МКГ постановила** продолжать осуществление инициатив по развитию потенциала в области применения стандартных оперативных процедур (СОП), карт, планов и процедур на случай чрезвычайных ситуаций, связанных с цунами, а также в рамках Программы по сертификации готовности к цунами (ПСГЦ) и обучения операторов центров предупреждения о цунами на рабочем месте, обеспечиваемого ПДСЦ.

17. **МКГ постановила** продолжить работу:

- рабочей группы 1 по опасности цунами, информированию и обеспечению готовности общин;
- рабочей группы 2 по обнаружению цунами, оповещению и распространению информации о них;

- рабочей группы 3 по осуществлению Программы сертификации готовности к цунами;
- субрегиональной рабочей группы по северо-западной части Индийского океана;
- руководящей группы.

18. **МКГ постановила** учредить целевые группы по:

- учениям «Волна-25» в Индийском океане;
- новым/передовым технологиям для наблюдений и прогнозирования;
- среднесрочной стратегии.

19. **МКГ призвала** государства-члены вносить добровольные взносы на Специальный счет МОК для МКГ/СПЦСПИО в поддержку мероприятий, определенных в программе и бюджете для обеспечения эффективного функционирования СПЦСПИО и развития потенциала государств-членов. **МКГ поручила** рабочей группе МОК ЮНЕСКО по системам предупреждения о цунами и других опасных явлениях, связанных с изменением уровня моря, и смягчения их последствий (РГ-СПЦО), завершить разработку и согласовать систему ключевых показателей эффективности для глобальной системы предупреждения о цунами и смягчения их последствий в целях содействия мониторингу и отчетности по функционированию СПЦСПИО и результатам государств-членов по обеспечению устойчивости и готовности к цунами 100% общин, подверженных риску цунами.

20. **МКГ избрала своих должностных лиц на начинающийся после окончания сессии следующий межсессионный период.** Г-н Паттабхи Рама Рао Элури (Индия) был избран председателем, а д-р Юэлун Мяо (Австралия) и д-р Харкунти Пертиви Рахаю (Индонезия) были избраны заместителями председателя.

21. **МКГ с признательностью отметила** вклад Австралии и постоянную поддержку секретариата СПЦСПИО со стороны ее правительства, а также поддержку правительства Республики Индонезия, где размещается Центр информации о цунами в Индийском океане (ЦИЦИО).

22. **МКГ выразила благодарность** правительству Республики Индонезия за организацию 14-й сессии МКГ/СПЦСПИО в Бантене.

23. **МКГ с признательностью приняла** любезное предложение правительства Султаната Оман о проведении 15-й сессии МКГ/СПЦСПИО в 2026 г., а также любезное предложение Индии, которое будет рассматриваться в качестве запасного варианта проведения 16-й сессии МКГ/СПЦСПИО в 2028 г.

МКГ приняла решения ICG/IOTWMS-XIV.1, которые приводятся в приложении II.

ANNEX I

AGENDA

- 1. OPENING**
- 2. ORGANISATION OF THE SESSION**
 - 2.1 ADOPTION OF AGENDA
 - 2.2 DESIGNATION OF RAPPORTEUR
 - 2.3 CONDUCT OF THE SESSION
 - 2.4 ESTABLISHMENT OF SESSIONAL COMMITTEES
- 3. REPORTS ON INTERSESSIONAL ACTIVITIES**
 - 3.1 ICG CHAIR'S REPORT
 - 3.2 IOC SECRETARIAT REPORT
 - 3.3 INDIAN OCEAN TSUNAMI INFORMATION CENTRE REPORT
 - 3.4 TOWS WORKING GROUP REPORT
 - 3.5 STATUS OF PROGRESS IN OTHER ICGS
 - 3.6 REPORTS FROM UN AND NON-UN ORGANISATIONS
 - 3.7 UNESCAP NWIO PROJECT STATUS REPORT
- 4. IOTWMS TSUNAMI SERVICE PROVIDER (IOTWMS-TSP) REPORTS**
 - 4.1 TSP AUSTRALIA
 - 4.2 TSP INDIA
 - 4.3 TSP INDONESIA
- 5. SPECIAL SESSION ON OUTCOMES FROM 2ND UNESCO-IOC GLOBAL TSUNAMI SYMPOSIUM: REPORT, OUTCOMES, ACTION PLAN**
- 6. TASK TEAM REPORT**
 - 6.1 INDIAN OCEAN WAVE 2023 (IOWAVE23)
- 7. WORKING GROUP PROGRESS REPORTS**
 - 7.1 WORKING GROUP 1 ON TSUNAMI RISK, COMMUNITY AWARENESS AND PREPAREDNESS
 - 7.2 WORKING GROUP 2 ON TSUNAMI DETECTION, WARNING AND DISSEMINATION
 - 7.3 WORKING GROUP 3 ON TSUNAMI READY IMPLEMENTATION
 - 7.4 SUBREGIONAL WORKING GROUP FOR THE NORTH-WEST INDIAN OCEAN
- 8. POLICY MATTERS**
 - 8.1 CAPACITY ASSESSMENT OF TSUNAMI PREPAREDNESS IN THE INDIAN OCEAN& 8.2 5UN OCEAN DECADE TSUNAMI PROGRAMME (ODTP).
 - 8.3 EXERCISE INDIAN OCEAN WAVE 2025 (IOWAVE25)
 - 8.5 IOTWMS GOVERNANCE AND STRUCTURE

- 8.5 TSUNAMI READY FOR CRITICAL INFRASTRUCTURE
- 8.6 PILOTING THE IMPLEMENTATION OF ISO-22328 GUIDELINES FOR THE IMPLEMENTATION OF A COMMUNITY-BASED TSUNAMI EARLY WARNING SYSTEM

9. IOTWMS DOCUMENTATION

- 9.1 IOTWMS STATUS REPORT
- 9.2 IOTWMS MEDIUM TERM STRATEGY
- 9.3 UPDATE TO THE DEFINITION OF SERVICES PROVIDED BY THE IOTWMS TSUNAMI SERVICE PROVIDERS
- 9.4 UPDATE TO THE NATIONAL TSUNAMI WARNING CENTRE USER'S GUIDE

10. REPORTS FROM SESSIONAL COMMITTEES

11. PROGRAMME AND BUDGET

12. ELECTION OF OFFICERS

13. WORKING GROUP AND TASK TEAM MEMBERSHIP

14. NEXT MEETING

- 14.1 CONFIRMATION OF DATE AND VENUE FOR ICG/IOTWMS-XV
- 14.2 TARGET DATE AND VENUE FOR ICG/IOTWMS-XVI

15. OTHER BUSINESS

16. ADOPTION OF DECISIONS AND RECOMMENDATIONS

17. CLOSE OF MEETING

ANNEX II

Decision ICG/IOTWMS-XIV.1

The Intergovernmental Coordination Group for the Indian Ocean Tsunami Warning and Mitigation System (ICG/IOTWMS),

Having met for its 14th Session from 17–19 November 2024 in Banten, Republic of Indonesia,

Recalling Resolution XXIII-12 that established the Intergovernmental Coordination Group for the Indian Ocean Tsunami Warning and Mitigation System (ICG/IOTWMS),

Acknowledging with appreciation the contribution and continued support of the Government of Australia for the UNESCO-IOC ICG/IOTWMS Secretariat Office since 2005,

Also acknowledging with appreciation the contribution and continued support of the Government of Republic of Indonesia through Agency for Meteorology, Climatology and Geophysics (BMKG) for the UNESCO-IOC Indian Ocean Tsunami Information Centre (IOTIC) since 2017 with the current support to the period 2023 to 2027,

Further acknowledging with appreciation the support from UNESCAP Trust Fund for Tsunami, Disaster and Climate Preparedness for the UNESCO-IOC projects on “Strengthening tsunami early warning in the North-West Indian Ocean through regional cooperation” and “2024 Capacity assessment of tsunami preparedness in the Indian Ocean”,

Having reviewed the progress made in the implementation of the IOTWMS since the 13th Session of the ICG/IOTWMS (28 November to 1 December 2022, Bali, Republic of Indonesia),

Having considered the reports of:

1. ICG/IOTWMS Chair
2. IOC Secretariat
3. IOTIC
4. 16th Meeting of the ICG/IOTWMS Steering Group
5. 16th and 17th Meetings of the TOWS-WG
6. UN Ocean Decade and Ocean Decade Tsunami Programme
7. UNESCAP Makran Project
8. ICG NEAMTWS, ICG PTWS, UNESCAP, IRIDeS
9. TSP Australia, TSP India and TSP Indonesia
10. 2nd UNESCO-IOC Global Tsunami Symposium
11. 2024 Capacity Assessment of Tsunami Preparedness
12. Working Group 1 on Tsunami Risk, Community Awareness, and Preparedness
13. Working Group 2 on Tsunami Detection, Warning and Dissemination
14. Working Group 3 on Tsunami Ready Implementation
15. Sub-regional Working Group for the North-West Indian Ocean
16. Task Team on IOWave23 Exercise,

Noting with appreciation the 22 Member State reports provided as part of the 2024 Capacity Assessment of Tsunami Preparedness in the Indian Ocean,

Also noting with appreciation the outcomes of the Working Group on Tsunamis and Other Hazards related to Sea-Level Warning and Mitigation Systems (TOWS-WG) in guiding the activities of the ICG and its Working Groups and Task Teams,

Recognizing the progress towards establishing National Tsunami Warning Centres (NTWCs) in all countries around the Indian Ocean since the Indian Ocean Tsunami of 26 December 2004,

Reaffirming that the IOTWMS is a coordinated network of national systems and capacities, and is part of a global network of early-warning systems for all ocean-related hazards,

Also reaffirming that each Member State has the responsibility to issue warnings within its respective territories,

Recalling the *Mauritius Declaration* adopted at the intergovernmental coordination meeting held at Grand Baie, 14–16 April 2005 to openly share and exchange tsunami-relevant real-time observational data in accordance with the UNESCO-IOC Oceanographic Data Exchange Policy,

Considering the outcomes of the 3rd UN World Conference on Disaster Risk Reduction (13–18 March 2015, Sendai, Japan), the Sendai Framework for Disaster Risk Reduction 2015–2030 (A/CONF.224/CRP.1),

Also considering the WMO International Network for Multi Hazard Early Warning Systems (IN-MHEWS) initiative;

Taking into account the Summary Statement of the International Conference to commemorate the 10th anniversary of the Indian Ocean Tsunami: 'The Indian Ocean Tsunami Warning and Mitigation System 10 years after the Indian Ocean Tsunami: Achievements, Challenges, Remaining Gaps and Policy Perspectives' (24–25 November 2014, Jakarta, Indonesia; (IOC/BRO/2015/2),

Noting:

- (i) the Summary Statement of the symposium 'Advances in Tsunami Warning to Enhance Community Responses' (12–14 February 2018, Paris, France) that identified the current status of operational tsunami warnings and community resilience and future avenues for improvement (IOC/BRO/2018/3),
- (ii) the decision by the UN General Assembly, as part of the Omnibus Resolution for Oceans and the law of the sea (A/RES/72/73), to "proclaim the United Nations Decade of Ocean Science for Sustainable Development for the 10-year period beginning on 1 January 2021",
- (iii) the UN Ocean Decade Tsunami Programme (ODTP) and its two primary goals of 1) Improved accuracy and timelines of the tsunami warnings through enhance and new observing systems, and 2) 100% of at-risk Communities resilient and prepared for the tsunami threat by 2030, and the publication of the Research Development and Implementation Plan (RDIP),
- (iv) the UN Secretary-General's Early Warnings for All initiative, which called for every person on Earth to be protected by early warning systems by 2027,

Noting with appreciation the successful effort of the Republic of Indonesia through its Agency of Meteorology, Climatology and Geophysics (BMKG) to host the 2nd UNESCO-IOC Global Tsunami Symposium, Banda Aceh, Indonesia, 10–14 November 2024 with 682 in-person participants representing 32 countries, 170 virtual participants and many social media viewers,

Also noting the outcomes of the 2nd UNESCO-IOC Global Tsunami Symposium in the *Banda Aceh Statement on Global Tsunami Warning and Mitigation System: Building Sustainability for the next decade through Transformation and Innovation* (IOC/BRO/2025/1), UNESCO and its partners call on States and civil society to drastically step up their investments and efforts to strengthen Tsunami Early Warning Systems and achieve 100% of Tsunami Ready Communities across the world by 2030,

Recalling IOC Resolution XXVI-6 on Data Buoy Vandalism: Impact and Responses, IOC Resolution XXVI-7 on Global Coordination of Early Warning and Mitigation Systems for Tsunamis and Other Sea-Level Related Hazards,

Acknowledging the contributions of seismic data through the CTBTO,

Reaffirming that participation in ICG activities should be self-funded by the Member States,

Encouraging Member States to promptly inform the Secretariat of all changes to the TNC/TWFP/NTWC contacts through official channels,

Further noting the continued diminishing engagement by some Member States in the activities of the ICG/IOTWMS and **urging** all Member States to participate more actively,

Encouraging Member States to make voluntary contributions to the IOC Special Account set up for the ICG/IOTWMS to support activities identified in the Budget and Programme to underpin successful implementation of the IOTWMS and capacity development for Member States,

Noting with appreciation the efforts of IOTWMS Tsunami Service Providers (TSPs) Australia, India, and Indonesia, including the issuing of public bulletins over the IOC Public Email List server and the GTS,

Noting the importance of the national status of tsunami warnings to be available on the TSP public websites, and **also urging** Member State National Tsunami Warning Centres to ensure national tsunami warning status is reported back to the TSPs in a timely manner via the agreed web reporting protocols during tsunami events, tests and exercises,

Also noting the importance of clarifying the earthquake hazard and tsunami potential of the Makran Subduction Zone,

Encouraging Member States to continue to acquire new datasets such as the Global Navigation Satellite System (GNSS), seismic, paleo-tsunami and other geological data to enhance tsunami hazard assessment and the timeliness and accuracy of tsunami warnings in the North-West Indian Ocean,

Noting the importance of seismic data for timely and accurate determination of tsunami threats by TSPs, and the progress made in bilateral exchange of seismic data among some Member States,

Further urging Member States, especially in the North-West Indian Ocean region, to provide all relevant seismic data in real-time to TSPs and other Member States,

Encouraging Member States to acquire high-resolution coastal bathymetry and topography data to improve characterisation of tsunami and other coastal hazards and risks and promote sharing of this data to the extent possible,

Noting with concern the continued instances of tsunami buoy vandalism in the IOTWMS region, and **encouraging** Member States to promptly inform the UNESCO-IOC Secretariat such

occurrences of tsunami buoy vandalism to facilitate incorporation in the Global Vandalism Report of the Data Buoy Cooperation Panel (DBCP),

Also encouraging Member States to consider contributing any education or outreach materials related to data buoy vandalism to the DBCP for inclusion in a tool kit of regionally relevant materials to counter vandalism,

Noting the successful outcomes of Phases 1, 2a and 2b of the UNESCAP funded project "Strengthening tsunami early warning in the North-West Indian Ocean through regional cooperation",

Also noting the implementation of Phase 2c of the NWIO UNESCAP project involving training in inundation and evacuation mapping in support of implementation of the UNESCO-IOC Tsunami Ready Recognition Programme (TRRP) in the region,

Further noting the role of IOTIC to facilitate, guide, and support Member States in the implementation of the UNESCO-IOC TRRP in coordination with the UNESCO-IOC Secretariat for the ICG/IOTWMS,

Noting with appreciation the work of the Steering Group in overseeing the 2024 Capacity Assessment of Tsunami Preparedness and the comprehensive nature and value of the assessment;

Noting the value of basin-wide tsunami exercises and drills and the successful conduct by Member States of Exercise IOWave23 with multiple scenarios including a non-seismic (volcanic) source involving participation from 20 Member States, 9 out of which have engaged communities including people with disabilities, all genders, elderly, youth and private sector,

Recognizing the valuable recommendations from the IOTWMS-IOTIC Post-IOWave23 Webinar, 12–13 December 2023, on Lessons Learnt during Exercise Indian Ocean Wave 2023,

Encouraging Member States to conduct further exercises and drills at the national level involving communities at least once per year,

Also noting with appreciation the recognition of 48 communities in India and Indonesia as UNESCO-IOC Tsunami Ready,

Encouraging all Member States to implement the TRRP in vulnerable communities with UNESCO-IOC recognition to meet the UN Ocean Decade Tsunami Programme goal of 100% at-risk communities resilient and prepared for tsunamis,

Also recognizing the Palu, Sunda Strait, Hunga Tonga-Hunga Ha'apai, and South Sandwich Island tsunami events as being complex from an early warning perspective, the current technical limitations of producing timely and accurate forecasts for tsunamis from near-field non-seismic and complex sources (e.g. aerial landslides, submarine landslides, volcanoes) and the value of in situ observations,

Also noting the efforts of the UNESCO-IOC TOWS-WG to develop a better understanding of the threat from tsunamis generated by non-seismic and complex sources and develop guidance on best practices to monitor and warn for such events,

Further recognizing tsunamis generated by non-seismic and complex sources are often near-field threats where natural warnings signs are important to understand to facilitate effective community responses,

Also encouraging all Member States to:

- (i) continue reviewing their national tsunami warning chains with a view to minimising the number of steps and ensuring clear authorization of responsibilities amongst stakeholders, especially for near-field tsunami threats,
- (ii) emphasise to Disaster Management Organisations (DMOs) the role they play in strengthening the national warning chain to ensure optimal community response, and stress the importance that all agencies participate in regional tsunami governance and technical forums,
- (iii) enhance community preparedness for near-field tsunamis, with emphasis on self-evacuation based on natural signs, including tsunamis generated by non-seismic and complex sources,

Encouraging NTWCs and DMOs to continue to develop and routinely review Standard Operating Procedures (SOPs) and provide copies to the UNESCO-IOC Secretariat for the ICG/IOTWMS,

Also encouraging the involvement of national and international broadcast media in warning dissemination, SOP training activities, workshops, and exercises,

Urging Member States to:

- (i) ensure DRR based spatial planning is also taken into consideration at the city, province, and national level with respect to overall preparedness and sustainable resilience,
- (ii) Member States to consider nominating new participants to training activities and workshops to ensure that more in-country experts are trained and available to handle tsunami warning operations and emergency response to the tsunami threat,
- (iii) Member States to sample sea level data at one-second intervals and transmit this in real-time, given the critical need to resolve and understand the near-field threat to high at-risk communities where a tsunami may arrive within 5-30 minutes,

Noting:

- (i) the extensive task to achieve the outcome 100% of at-risk communities resilient and prepared for tsunamis, **further recognizing** the roles of the ICG/IOTWMS and its work plans are to support the capacity development of Member States to help them achieve this, depending on their risk assessment and national priorities;
- (ii) the success of Regional Working Group for North-West Indian Ocean in regional cooperation of Member States facing similar risks, resources and capacity,
- (iii) the approval of the UN ODTP Research Development and Implementation Plan by the 32nd Session of the IOC Assembly and publication of the White Paper on Challenge 6 of the UN Ocean Decade “Increase Community Resilience to Ocean Hazards”,
- (iv) the annual success of the World Tsunami Awareness Day (WTAD) held on 5 November with the support of UNDRR and UNESCO-IOC in developing community awareness,

Urging Member States to advise UNESCO-IOC IOTC and UNESCO-IOC ICG/IOTWMS Secretariat of their plans two months before the WTAD event each year, so that a more coordinated and targeted approach can be developed to further maximize outcomes,

Decides to:

- (i) Include the instructions from 57th Session of the IOC Executive Council, and the recommendations from TOWS-WG-XVI and XVII in the work plans of the ICG for the next inter-sessional period;
- (ii) Extend the TSP services to include tsunamis generated by non-seismic and complex sources;
- (iii) Accepts the reports of IOWave23 Exercise, IOTWMS Service Definition Version 5, NTWC User's Guide Version 3, incorporating any feedback received from the Member States in four weeks and submission to IOC for publication as an UNESCO-IOC document;
- (iv) Instructs the Steering Group to finalize the 2024 Capacity Assessment Report and Executive Summary in four weeks, for further review by the Member States, incorporate feedback if any, and endorse the final report for publication as an UNESCO-IOC document;
- (v) Continue existing Working Group 1 with modified Terms of Reference as attached in [Annex 1](#), with Chair Dr Weniza (Indonesia) and Vice-chair Dr Mahendra S Ranganalli (India);
- (vi) Continue existing Working Group 2 with modified Terms of Reference as attached in [Annex 2](#), with Chair Mr Padmanabham Jijavarapu (India) and two Vice-chairs: Dr Robert Greenwood (Australia) and Mr Yedi Dermadi (Indonesia);
- (v) Continue existing Working Group 3 with modified Terms of Reference as attached in [Annex 3](#), with Chair Ms Suci Dewi Anugrah (Indonesia) and Vice-Chair Dr Ali Khoshkhogh (Iran);
- (vi) Continue existing Regional Working Group for the North-West Indian Ocean with modified Terms of Reference as attached in [Annex 4](#), and with Chair Ms V Sunanda Manneela (India) and Vice-chair Mr Nasser Al Ismaili (Oman);
- (vii) Continue the Steering Group with modified Terms of Reference as attached in [Annex 5](#), with TSP Representatives and NTWC Representative to be confirmed;
- (viii) Establish a new intersessional Task Team on Indian Ocean Wave 25 Exercise (IOWave25) reporting to the Steering Group with Terms of Reference as attached in [Annex 6](#), and with Chair Dr Ajay Kumar Bandela (India) and Vice-chair Ms Septa Anggraini (Indonesia);
- (ix) Establish a new intersessional Task Team on New/Emerging Technologies for Observations and Forecasting under the WG2 as per the TOR in [Annex 7](#) and with Chair Dr Wahyu Widodo Pandoe (Indonesia);
- (x) Decides to set up a Task Team on MediumTerm Strategy (MTS) to prepare a draft MTS 2025–2030 considering key elements and approach as detailed in [Annex 8](#) and with Chair Dr Yuelong Miao (Australia) and Co-chair Dr Harkunti Rahayu (Indonesia);
- (xi) Request the Steering Group to supervise the work of the Task Team and to finalise the MTS 2025–2030 by early half of 2025;
- (xii) Continue the Terms of Reference of the Indian Ocean Tsunami Information Centre (IOTIC), as attached in [Annex 9](#);
- (xiii) Hold inter-sessional activities as integrated meetings to optimize resources if available;
- (xiv) Dissolve the IOWave23 Task Team;

- (xv) Dissolve Task Team on Scientific Tsunami Hazard Assessment of the Makran Subduction Zone;
- (xvi) Instructs the Steering Group, Working Groups and Task Teams to consider the recommendations of the ODTP RDIP, IOWave23, 2024 Capacity Assessment and 2nd Global Tsunami Symposium into their work plans;
- (xvii) Continue the capacity development initiatives related to SOPs, TEMPP, TRRP and on-the-job training for warning centre operators by TSPs;
- (xviii) Request the Steering Group to explore if there is a need of expanding sub-regional working groups to address regional gaps and strengthen collaborations;
- (xix) Develop the summary statement of the 2nd UNESCO-IOC Global Tsunami Symposium together with the Program Committee for publication as a UNESCO-IOC document;

Requests Working Group 1 to:

- (i) Develop guidelines for Tsunami Ready Critical Infrastructure in collaboration with WG3 and share with the TOWS-WG in their next meeting,
- (ii) Probabilistic Tsunami Hazard Assessment for Indian Ocean including non-seismic sources,
- (iii) Develop Inclusive People Centred Early Warning DMO SOPs for near field tsunami,
- (iv) Develop draft assessment tool for the downstream warning process;

Requests Working Group 2 to:

- (i) Trial dissemination of maritime bulletins to respective NAVAREA operators in the Area of Service (AoS) for the upcoming communication test and for full operational implementation in 2025,
- (ii) Develop a Standard Operating Procedure (SOP) document for TSPs to address Tsunami-Generating Volcanic Events (TGVEs),
- (iii) Develop an optimal national observing network design to meet the objectives of ODTP, facilitate the strategic and coordinated submission of projects to the UN Ocean Decade and potential funding sources,
- (iv) Utilise and promote the use of multi-purpose sea level monitoring stations to support MHEWS in enhancing data coverage and reducing costs,
- (v) Utilise exercises and communication tests as an opportunity to simultaneously monitor data availability and quality;

Requests Working Group 3 to:

- (i) Encourage Member States to establish National Tsunami Ready Board (NTRB) or consider including its role, responsibilities, and functions in the existing disaster management coordination mechanism,
- (ii) Review the guidance on Tsunami Ready Equivalency of ICG/PTWS,
- (iii) Review national tsunami preparedness programmes in the Member States and prepare guidance on similar initiatives to the UNESCO-IOC Tsunami Ready Recognition Programme as contribution to the UN Decade Tsunami Programme,
- (iv) Encourage members to identify potential communities for implementing the Tsunami Ready Recognition Programme,
- (v) Continue the capacity development on Tsunami Ready for the Member States and national Tsunami Ready facilitators,

- (vi) Encourage the Member States to explore possibilities for implementation of Tsunami Ready for critical infrastructure;

Requests Sub-regional Working Group for North-West Indian Ocean to:

- (i) Progress data sharing amongst the North-West Indian Ocean countries, and with the TSPs,
- (ii) Formulate a regional Paleo-tsunami study proposal for possible funding and contribution to the UN Ocean Decade Tsunami Programme,
- (iii) Extend the inundation and evacuation maps, as developed for the pilot areas under the UNESCAP project, to the other areas of NWIO region in line with the results of the hazard assessments towards implementation of the UNESCO-IOC Tsunami Ready Recognition Programme,
- (iv) Facilitate on-the-job training for National Tsunami Warning Centre representatives;

Requests Task Team IOWave25 to:

- (i) Plan and conduct the IOWave25,
- (ii) Consider performing exercises outside of working hours, in particular during the night or weekend, but being careful to take into consideration difficulties and possible issues of involving the public in such drills,
- (iii) Encourage the Member States to ensure the participation of the community, especially those recognized as UNESCO-IOC Tsunami Ready Community to participate in IOWave25;

Requests UNESCO-IOC Secretariat for the ICG/IOTWMS to:

- (i) In collaboration with IOTIC, prepare a proposal for Phase 3 of the Makran Project focussing on Tsunami Ready implementation and submit to UNESCAP,
- (ii) Support the Steering Group and Working Groups to build linkages of ICG and IOTWMS Member States activities with the Ocean Decade Tsunami Programme,
- (iii) Facilitate publication of UNESCO-IOC documents including IOWave23 Exercise, 2024 Capacity Assessment, IOTWMS Service Definition Version 5, NTWC User's Guide Version 3 and the report of 14th Session of ICG IOTWMS,
- (iv) Liaise with NAVAREA Coordinators WWNWS Sub-Committee about piloting NAVAREA Maritime Products and to eventual implementation;

Requests the UNESCO-IOC IOTIC to:

- (i) Create a capacity development work plan jointly with IOTWMS Secretariat for the intersessional period based on the priority needs of the Member States, where possible, utilizing the facilities of ITCOocean, INCOIS in India, and the STC, BMKG in Indonesia,
- (ii) Organize jointly with IOTWMS Secretariat at least one TEMPP Training and one SOP Training during the intersessional period,
- (iii) Organize jointly with IOTWMS Secretariat and BMKG at least two in-country training programmes on implementation of UNESCO-IOC Tsunami Ready Recognition Programme, prioritising SIDS, LDCs and Africa,
- (iv) Publish "*The Unforeseen Threat*", developed by IOTIC, WG-1, and U-INSPIRE Indonesia by considering additional input from WG-2, as a UNESCO-IOC document,

- (v) Propose mechanisms in consultation with the Steering Group to strengthen the structure, organisation, and management of the IOTIC through possible voluntary contributions from the Member States;
- (vi) Continue to implement the work plan under the IOTIC-BMKG Program including preserving past tsunami information for future preparedness and youth engagement;

Requests UNESCO-IOC TOWS-WG to complete and harmonise the KPI Framework for the global tsunami warning and mitigation system to facilitate monitoring and reporting of implementation of the IOTWMS and progress towards Member State goal of 100% of at-risk communities resilient and prepared for tsunamis;

Also requests the UNESCO-IOC Executive Secretary to prepare the Executive Summary Report of the 14th Session of the ICG/IOTWMS within 30 days;

Elects Mr E. Pattabhi Rama Rao (India) as ICG/IOTWMS Chair and Dr Yuelong Miao (Australia) and Dr Harkunti Pertiwi Rahayu (Indonesia) as Vice-chairs for the next intersessional term commencing at the end of the session;

Expresses its gratitude to the Government of the Republic of Indonesia for kindly hosting the 14th Session of the ICG/IOTWMS in Banten;

Accepts with appreciation the kind offer of the Government of the Sultanate of Oman to host the 15th Session of the ICG/IOTWMS in 2026;

Also accepts with appreciation the kind offer of India as a backup option to host the 16th Session of the ICG/IOTWMS in 2028.

Financial Implications: Extradudgetary only

Annex 1 to Decision ICG/IOTWMS-XIV.1

Working Group 1 **Tsunami Risk, Community Awareness and Preparedness**

Terms-of-Reference

Liaise with other working group(s) and task team(s) within the ICG/IOTWMS and with working groups from the other ocean basins through the TOWS-WG to:

1. Assist, develop and strengthen the overall capacity and capability of Member States in tsunami hazard, risk assessment and mitigation, community awareness and preparedness, including for tsunamis generated by non-seismic and complex sources and multi-hazard framework.
2. Encourage Member States to mainstream tsunami Disaster Risk Reduction into sustainable development to help achieve resilient communities in the region.
3. Support implementation of IOWave Exercises.
4. Identify areas of priority for action following assessments, exercises, and real tsunami events.
5. Provide advice on user requirements and utility of tsunami warning products and services.

6. Provide advice to and collaborate with the UNESCO-IOC Indian Ocean Tsunami Information Centre (IOTIC) on education, awareness and preparedness including for non-seismic and complex sources.
7. Provide special attention to the needs of SIDS, LDCs, Africa in the work programme.
8. Develop WG1 work plans in line with the broad objectives of ODTP RDIP, Ocean Decade Challenge 6, EW4ALL.
9. Promote collaboration among academia, research institutions and disaster management offices to encourage multidisciplinary and multi sectoral interaction in ensuring tsunami risk knowledge are streamlined to risk reduction strategies.

The Working Group 1 will be composed of members nominated by Member States with expertise in disaster management, an invited IOTIC representative, and other invited observers as required, with a chairperson and two vice-chairpersons to be elected by the ICG.

Annex 2 to Decision ICG/IOTWMS-XIV.1

**Working Group 2
Tsunami Detection, Warning and Dissemination**

Terms-of-Reference

Liaise with other working group(s) and task team(s) within the ICG/IOTWMS and with working groups from the other ocean basins through the TOWS-WG to:

1. Coordinate and strengthen the operational implementation of tsunami detection, warning and dissemination, including for tsunamis generated by non-seismic and complex sources, and multi-hazard framework.
2. Support the Tsunami Service Providers (TSPs) delivery of interoperable regional tsunami threat information products to Member States.
3. Support Member States in the development of their national tsunami warning capabilities.
4. Monitor the performance of key observational, warning and communication system components.
5. Support implementation of IOWave Exercises.
6. Identify areas of priority for action following assessments, communications tests, exercises, and real tsunami events.
7. Provide advice to and collaborate with the UNESCO-IOC Indian Ocean Tsunami Information Centre (IOTIC) on capacity development on warning system and services including for non-seismic and complex sources.
8. Provide special attention to the needs of SIDS, LDCs, Africa in the work program.
9. Develop WG2 work plans in line with the broad objectives of ODTP RDIP, Ocean Decade Challenge 6, EW4ALL.
10. In collaboration with UNESCO-IOC IOTIC and UNESCO-IOC Secretariat for ICG/IOTWMS, help strengthen the capacity and capability of Member States.

The Working Group will be composed of members nominated by Member States, Member State representatives for each ICG-designated TSP, at least two representatives of non-TSP National Tsunami Warning Centres, and invited observers, with a chairperson and one or two vice-chairpersons to be elected by the ICG.

Annex 3 to Decision ICG/IOTWMS-XIV.1

Working Group 3 Tsunami Ready Implementation

Terms-of-Reference

Liaise with other working group(s) and task team(s) within the ICG/IOTWMS and with working groups from the other ocean basins through the TOWS-WG to:

1. Monitor and evaluate the implementation of the UNESCO-IOC Tsunami Ready Recognition Programme (TRRP) and similar initiatives.
2. Promote and provide guidance on how to nationally initiate TRRP and similar initiatives.
3. Facilitate the capacity development of TRRP and sharing of experiences between Member States.
4. Update Member States on TRRP developments and other related initiatives.
5. Explore the possibilities of extending the Tsunami Ready indicators to other sectors such as to critical infrastructures.
6. Provide advice to and collaborate with the UNESCO-IOC Indian Ocean Tsunami Information Centre (IOTIC) on capacity building for TRRP.
7. Prioritize SIDS, LDCs, Africa and NWIO region in the work programme.
8. Integrate ODTP RDIP into the WG3 work plan

The Working Group membership will be comprised of ICG/IOTWMS TRRP experts, Member State Tsunami Ready Focal Points (TRFP), invited experts, IOTIC, Secretariat.

Annex 4 to Decision ICG/IOTWMS-XIV.1

Regional Working Group North-West Indian Ocean

Terms-of-Reference

Liaise with other working group(s) and task team(s) within the ICG/IOTWMS and with working groups from the other ocean basins through the TOWS-WG to:

1. Evaluate capabilities and ascertain capacity building requirements of Member States in the region for providing end-to-end tsunami warning and mitigation services within the framework of the ICG/IOTWMS and within a multi-hazard framework.
2. Facilitate cooperation in the establishment and upgrading of seismic, sea level and GNSS stations and networks and communication systems in the region.
3. Facilitate the capacity building and the sharing of the tsunami-related data and information in the region.
4. Establish and maintain procedures for National Tsunami Warning Centres (NTWCs) across the region to exchange information on national tsunami warnings, observations, and impacts during events.
5. Support the WG3 effort to implement the Tsunami Ready Recognition Program in the region.

The Working Group will be composed of members representing National Tsunami Warning Centres and Tsunami Ready Focal Points from each of the Member States of India, Iran, Oman, Pakistan, United Arab Emirates, and Yemen in the North-West Indian Ocean region and invited experts.

Annex 5 to Decision ICG/IOTWMS-XIV.1

Steering Group

Terms-of-Reference

Coordinate and integrate the work of ICG/IOTWMS in the inter-sessional periods, as implemented through the ICG's various Working Groups and Task Teams to:

1. Oversee the execution of the Decisions and Recommendations of the ICG.
2. Monitor the overall performance of the IOTWMS.
3. Identify areas of priority for action following assessments, communications tests, exercises, and real tsunami events.
4. Ensure the IOTWMS is implemented in line with the guidance of the TOWS-WG for the harmonisation of global tsunami warning and mitigation systems.
5. Identify and assess resource requirements to support implementation of the IOTWMS.
6. Approve out of session documents as delegated by ICG/IOTWMS.

Membership of the Steering Group includes the ICG Chair and Vice-Chairs, Chairs and Vice-Chairs of the Working Groups, Member State representatives from each TSP and two other NTWCs. Invited observers include a representative from IOTIC, immediate past Chair of the ICG for one term, and other invited observers as required. The Chair of ICG/IOTWMS is the Chair of the Steering Group. The Steering Group will primarily work offline by correspondence but will meet in person at least once a year if resources are available.

Annex 6 to Decision ICG/IOTWMS-XIV.1

Task Team on IOWave25

Terms-of-Reference

Under the direction of the Steering Group:

1. Plan and coordinate the next IOWave Exercise (IOWave25), taking on-board suggestions from the post-IOWave23 lessons learnt workshop, including an increased focus on involving Local Disaster Management Offices (LDMOs) down to community level and implementation of IOTR.
2. Prepare the IOWave25 Exercise Manual in accordance with the Guideline on "How to Plan. Conduct and Evaluate Tsunami Exercises" (IOC Manuals and Guides No. 58) at least 6 months in advance of the exercise.
3. Prepare the Exercise Report for ICG/IOTWMS-XV.

The Task Team will report to the Steering Group and work in collaboration with Working Group 1, Working Group 2, Working Group 3 and IOTIC, and be composed of members nominated by Member States and representatives from TSPs, with a chairperson and vice-chairperson.

Annex 7 to Decision ICG/IOTWMS-XIV.1

Indian Ocean Tsunami Information Centre

Terms-of-Reference

Goal of IOTIC

The overall goal of IOTIC is to support the UNESCO-IOC ICG/IOTWMS Member States in tsunami risk reduction for Indian Ocean at-risk communities through capacity building in tsunami hazard, awareness, preparedness, education, and mitigation measures.

Objectives

- Strengthening the Indian Ocean (national and regional) tsunami disaster risk reduction and emergency response capacity for an effective tsunami early warning system.
- Supporting preparedness against tsunamis of at-risk communities, especially through the implementation of UNESCO-IOC Tsunami Ready Recognition Programme (TRRP).
- Providing resources in tsunami risk reduction, educational, awareness, and preparedness for the Indian Ocean region.

Terms-of-Reference

1. Help reduce the overall tsunami risk across the Indian Ocean by working closely and in coordination with the UNESCO-IOC ICG/IOTWMS, its Steering Group, Working Groups, Task Teams, UNESCO-IOC ICG/IOTWMS Secretariat, and the TOWS-WG Task Team on Disaster Management & Preparedness (TT DMP) to:
 - a. Contribute to the development of global guidelines in tsunami risk reduction and their implementation in the Indian Ocean.
 - b. Maintain close familiarity of the operations and needs of the Indian Ocean Tsunami Warning and Mitigation System and work closely with the Tsunami Service Providers (TSPs), National Tsunami Warning Centres (NTWCs), and Disaster Management Organisations (DMOs) to assist, as needed, with the socialization, promotion, and capacity building required for an effective tsunami emergency response.
 - c. In coordination with the UNESCO-IOC ICG/IOTWMS Secretariat and as needed, support the ICG/IOTWMS and its Working Groups and Task Teams to conduct training programmes, workshops, and seminars.
 - d. In collaboration with the UNESCO-IOC ICG/IOTWMS Secretariat develop project proposals and assist with project implementation in support of the ICG/IOTWMS programmes and activities in the Indian Ocean Region.
 - e. Manage tsunami post-event performance surveys and compilation of reports in close collaboration with the UNESCO-IOC ICG/IOTWMS Secretariat under the overall direction of the ICG/IOTWMS Steering Group, assisted by the International Tsunami Information Center (ITIC), UNESCO-IOC Tsunami Unit, and teams of experts nominated by the UNESCO-IOC ICG/IOTWMS Steering Group as required.
2. Help Member States of the UNESCO-IOC ICG/IOTWMS reduce their tsunami risk by:
 - a. Serving as the focal point under the guidance of the UNESCO-IOC ICG/IOTWMS to guide, facilitate, and process the implementation of the UNESCO-IOC Tsunami Ready Recognition Programme (TRRP) in the Indian Ocean.

- b. Serving as the focal point under the guidance of the ICG/IOTWMS, in coordination with the UNESCO-IOC Secretariat, to guide, facilitate, support, and coordinate the activities of the World Tsunami Awareness Day (WTAD) in the Indian Ocean.
 - c. Assisting national stakeholders in the overall improvement of tsunami preparedness and effective tsunami emergency response through tsunami risk assessment, warning guidance and emergency response, education and awareness, tsunami mitigation, and the implementation of national initiatives to reach certification against the UNESCO-IOC Tsunami Ready indicators.
 - c. Serving as an information resource providing for the development, publication, and distribution of resource materials on tsunami hazard, awareness, preparedness, and education for the Indian Ocean.
 - d. Serving as a technical resource and help foster research and its application to strengthen technical and institutional aspects of tsunami preparedness and tsunami emergency response to prevent loss of life and minimize damage to property.
3. Coordinate activities and exchange materials, resources, and information with other Tsunami Information Centres (TICs) of the other ocean basins (Caribbean Tsunami Information Centre (CTIC), International Information Centre (ITIC), and North-East Atlantic and Mediterranean Seas Tsunami Information Centre (NEAMTIC)) to ensure global consistency and potential use of derived products across all regions.
 4. Share information on programmes, activities, and events, as well as information on tsunami education, awareness, and preparedness resources by managing and maintaining the IOTIC Website and social media channels as platforms for information exchange

Governance

The IOTIC is an UNESCO-IOC entity operating under the overall authority of the Executive Secretary of UNESCO-IOC. The day-to-day management is performed by the UNESCO-IOC National Programme Officer stationed in Jakarta under the supervision of the Director of the UNESCO Office Jakarta and the Head of the UNESCO-IOC Tsunami Unit in Paris. The operational and implementation of programmes and activities of IOTIC is in close coordination with the IOC- UNESCO ICG/IOTWMS Secretariat in Perth. The IOTIC reports to each session of the IOC- UNESCO ICG/IOTWMS and to the inter-sessional meetings of the UNESCO-IOC ICG/IOTWMS Steering Group. IOTIC's activities and work plans are guided by and coordinated with the overall needs and requirements of the UNESCO-IOC ICG/IOTWMS, it's Working Groups and Task Teams.

Activities IOTIC:

- Organize regular regional workshops and training programmes to meet the capacity development requirements of the IOTWMS Member States including SOP, TEMPP, TRRP etc.
- Support IOTWMS Member States in implementing the UNESCO-IOC Tsunami Ready Recognition Programme.
- Support studies and assessments on community tsunami awareness and preparedness including preserving past tsunami information for future preparedness and youth engagements.
- Support IOTWMS Member States through the development of public tsunami education, awareness, and preparedness materials, and the adaptation of the materials to the local context and need.

- Manage and maintain the IOTC Website and social media as a platform for sharing information on the IOTWMS and tsunami education, awareness and preparedness.
- Support, document, and communicate IOWave exercises and World Tsunami Awareness Day (WTAD).
- Support the development and implementation of projects and activities through external funding opportunities.

Annex 8 to Decision ICG/IOTWMS-XIV.1

Task team on Medium Term Strategy 2025–2030

Approach for the development of the IOTWMS Medium Term Strategy 2025–2030

Use four pillars as adopted in the ODTP and EW4ALL, taking into consideration of similar strategies in other ICGs:

- Pillar 1: Disaster risk knowledge
- Pillar 2: Detection, observations, monitoring, analysis and forecasting
- Pillar 3: Warning dissemination and communication
- Pillar 4: Preparedness to respond

Highlight achievements made in current MTS and what remains to be done.

Consider all identified gaps and recommendations from:

- Capacity Assessment Survey 2024
- 2nd Global Tsunami Symposium
- Learnings from recent events/exercises
- TSP Reports
- WG/TT reports
- TOWS-WG, other ICG reports
- Projects in flight/funded

Also consider:

- UN Ocean Decade/Challenge 6 White Paper
- ODTP
- EW4ALL
- New/emerging technologies
- Trend in political, technology, social/economical etc

Do thorough environmental scan (SWOT analysis) against each pillar.

Develop more targeted implementation plan/section:

- Should cover short-term and long-term goals and KPIs
- Leverage off ODTP RDIP and EW4ALL

Consider seeking input from external experts for improvement to the Strategy.

Task Team Membership will consist of Chairs of Working Groups, Task Teams, ICG/IOTWMS Secretariat, IOTC, representatives nominated by Member States at the ICG Session.

Annex 9 to Decision ICG/IOTWMS-XIV.1

Task Team on New/Emerging Technologies for Observations and Forecasting

Terms of Reference

This expert Task Team will establish integrating new and emerging techniques and technologies by:

1. Developing a methodology for gap and sensitivity analysis that combines multiple sensing technologies for tsunami detection and characterisation.
2. Designing optimal notional seismic and sea level networks to enhance the timelines of Tsunami Early Warning by TSPs and NTWCs.
3. Integrating emerging techniques and sensor technologies (e.g. better use of tide gauges; GNSS technology and processing; sensors on SMART Cables) with the existing sensing network to meet tsunami warning service requirements in support of UN ODTP goals.
4. Where possible, include cost-benefit analysis of the potential technologies being considered.
5. Undertake to establish direct collaboration between ICG/IOTWMS Member States, with other ICGs, and expert groups (such as International Association of Geodesy (IAG), International GNSS Service (IGS) for the purpose of collaborating on data sharing and research efforts that are adaptable to the tsunami warning systems and operations.
6. Assess the utility and limitations of emergent technologies and techniques, e. g. GNSS and SMART Cable, that have potential to deliver ocean height in real-time.
7. Investigate emerging methods including PTF, AI/ML, real-time data assimilation and modelling etc for suitability to be adopted for operational tsunami warning.
8. Share information and procedures on deployments of new technologies to monitor sea level variations used for tsunami warning purposes, including undersea cable installations being deployed by Indonesia and India.

The Task Team will be open to TSPs, members nominated by Member States, and invited experts.
