Oceanographic
Commission

Pre-IOWave25 Workshops on Standard Operating Procedures for NTWCs and DMOs
Hybrid – August 2025

Issues for follow-up and future work

1. SOPs update and development, increased hazard specific clarity.
2. Revamp registered user page and draft warnings
3. Adapt Tsunami warnings in the Australian Warning System.
4. Evidenced based evacuation strategy from EM agencies
5. Additional technical information for emergency services, for example, land threat tier.

Exercise IOWave25 Plans

- **Scenarios:** 1) Sunda Trench (Thursday 25 September 2025); Sumatra Trench (Wednesday 5 November 2025)
- **Exercise types:** Functional exercise by BoM, Tabletop exercise by DMO (NEMA, DFES and NTES), and possibly with AMSA, etc.
 - Second desk top exercise for essential service network operators (water, electricity, oil companies, etc)
- **Key players:** NTWC, NDMO, P/LDMO, other agencies.
- **Evacuation:** None

World Tsunami Awareness Day 2025 Plans

- **Social media posts – collaboration with EM services to increase Tsunami awareness**
- **Link WTAD and IOWave25**
